

NEW MEXICO wants free silver more than anything else and this fact ought not to be lost sight of during the coming campaign. Eternal vigilance is the price of liberty and persistence is the price of free coinage.

It is estimated that the production of silver in this country this year will be fully 40 per cent. less than it was in 1892. This is an enormous shrinkage but it is only one of the results of the policy to demonetize and discredit silver.

BETWEEN the democrats, republicans and populists the coming campaign in this county promises to be one of unusual interest. THE EAGLE will keep its readers posted on what is being done and will keep at the head of the procession. You want THE EAGLE for the campaign and it will only cost you 50 cents for three months or until after the election.

SOME of the friends of George W. Miles are talking about nominating him for the council and he would probably accept the nomination and make the race if the interests of the party demand it. There is nothing but honor in the office for the pay would not justify a man in making the race.

THERE has been some talk of H. W. Ferguson, of Albuquerque, as a candidate on the democratic ticket

When he was voting with the silver men about two years ago his political friends thought he was committing political suicide, but he foresaw that a change in the feeling toward silver was coming and told them that he thought he knew what he was about, and now they are beginning to think he did.

that state is shown by the vote of Sibley for congress of his district. Sibley's majority of the voters of the state are in favor of the silver.

PROSPECTIVE candidates who are counting on the county convention being held some time in October, and who imagined that there would be plenty of time in which to get out and feel the public pulse, will have to begin making hay pretty soon. The time is short. The crop of candidates will be cut in September instead of October this year. Half of them will be thrashed in November and doubtless some of them who do not get thrashed will wish they had been.

SENATOR CAMERON, of Pennsylvania, is being talked of as an available candidate for president on the republican ticket in 1896. He is one of the few prominent politicians of the east who is in favor of the free and unlimited coinage of silver.
